# Project DIP: task plan (18 tasks)

LLM agent for lead qualification with CRM integration. Planned tasks with assignee, priority and deadline for YouTrack project DIP. The current status of each task is kept in YouTrack (State column).

| ID | Summary | Expected outcome and acceptance criteria | Priority | Due date | Assignee | State |
|---|---|---|---|---|---|---|
| **DIP-1** | Create repository and README | **Expected outcome:** GitHub repository with the structure docs/, diagrams/, src/, tests/, config/, README and .gitignore. **Acceptance criteria:** README contains project title, problem, users, aim, scope, technologies, links and setup note. | Critical | 2026-10-13 | Madiyar Kenzhebayev | |
| **DIP-2** | Set up YouTrack and create tasks | **Expected outcome:** YouTrack project DIP with tasks DIP-1..DIP-18. **Acceptance criteria:** each task has an owner, expected outcome, acceptance criteria, priority and deadline. | Critical | 2026-10-13 | Madiyar Kenzhebayev | |
| **DIP-3** | Project proposal | **Expected outcome:** docs/01-proposal.md. **Acceptance criteria:** problem, users, aim, objectives, outcomes and scope are present. | Major | 2026-10-13 | Madiyar Kenzhebayev | |
| **DIP-4** | Evidence: expert discussions and client agreement | **Expected outcome:** docs/02-evidence.md with the discussion log. **Acceptance criteria:** 3-5 discussions logged; written client confirmation received; verified findings separated from assumptions. | Critical | 2026-10-20 | Madiyar Kenzhebayev | |
| **DIP-5** | Literature review and source papers | **Expected outcome:** docs/03 and papers/ folder with PDFs. **Acceptance criteria:** at least 12 sources, at least 8 scientific; all identifiers checked (DOI or arXiv). | Major | 2026-10-22 | Madiyar Kenzhebayev | |
| **DIP-6** | Existing systems comparison | **Expected outcome:** docs/04 with 3-5 systems and 6-10 criteria. **Acceptance criteria:** each claim has a source link; vendor claims are labeled. | Major | 2026-10-22 | Madiyar Kenzhebayev | |
| **DIP-7** | Technology comparison | **Expected outcome:** docs/05. **Acceptance criteria:** at least 3 decisions with 2-3 alternatives each, justified by requirements. | Major | 2026-10-20 | Madiyar Kenzhebayev | |
| **DIP-8** | Requirements specification | **Expected outcome:** docs/06. **Acceptance criteria:** functional and non-functional requirements with priorities and measurable acceptance criteria. | Critical | 2026-10-20 | Madiyar Kenzhebayev | |
| **DIP-9** | Architecture diagrams | **Expected outcome:** diagrams/ (Mermaid sources) and docs/07. **Acceptance criteria:** system context, use case and component diagrams with editable sources. | Major | 2026-10-22 | Madiyar Kenzhebayev | |
| **DIP-10** | Prototype | **Expected outcome:** docs/08 and mockups. **Acceptance criteria:** mockups of key scenarios (chat, CRM lead card, operator panel). | Major | 2026-10-22 | Madiyar Kenzhebayev | |
| **DIP-11** | Verification and evaluation plan | **Expected outcome:** docs/09. **Acceptance criteria:** metrics, baselines, test sets and measurement conditions are described. | Major | 2026-10-22 | Madiyar Kenzhebayev | |
| **DIP-12** | Process supervisor feedback | **Expected outcome:** feedback log in docs/10. **Acceptance criteria:** each comment has a decision and a linked change or task. | Normal | 2026-10-24 | Madiyar Kenzhebayev | |

| ID | Summary | Expected outcome and acceptance criteria | Priority | Due date | Assignee | State |
|---|---|---|---|---|---|---|
| **DIP-13** | Telegram gateway skeleton | **Expected outcome:** src/channels/telegram.<br>**Acceptance criteria:** webhook receives a message and replies; test passes. | Major | 2026-11-07 | Madiyar Kenzhebayev | |
| **DIP-14** | Agent core: state machine and schema validation | **Expected outcome:** src/agent.<br>**Acceptance criteria:** FR-04 and FR-05 tests pass on scripted scenarios. | Critical | 2026-11-21 | Madiyar Kenzhebayev | |
| **DIP-15** | CRM adapter interface, mock CRM, Bitrix24 adapter | **Expected outcome:** src/crm.<br>**Acceptance criteria:** idempotent lead upsert verified (one lead per chat). | Major | 2026-11-28 | Madiyar Kenzhebayev | |
| **DIP-16** | Dataset and labeling protocol | **Expected outcome:** tests/data.<br>**Acceptance criteria:** at least 100 labeled, anonymized dialogues. | Major | 2026-12-05 | Madiyar Kenzhebayev | |
| **DIP-17** | WhatsApp channel | **Expected outcome:** src/channels/whatsapp.<br>**Acceptance criteria:** round trip with a test number. | Normal | 2026-12-12 | Madiyar Kenzhebayev | |
| **DIP-18** | Baselines and evaluation harness | **Expected outcome:** src/eval.<br>**Acceptance criteria:** baselines B1 and B2 measured; metrics script runs. | Major | 2026-12-19 | Madiyar Kenzhebayev | |
